Arkady Kukin

Arkady Kukin (b. 2003, Moscow) is a game designer and interactive artist. He makes games and interactive installations using Arduino, TouchDesigner, camera tracking and LiDAR. He works with all kinds of games, from dance rituals to therapeutic video games, and brings to art the experience of meaningful, tactile interaction and playful pretending. His work has been shown at MMOMA, the Ekaterina Cultural Foundation, Yandex.Museum and Redhills Gallery. He is studying for an MA in ArtTECH at NUST MISIS.
